22165 - Live From Abbey Road, a Selection of Unique Photographic Fusion-NFTs - Part I - e-Auction

Lot 1

Alt-JA Series of Unique Images from A Behind Closed Doors Performance(nft): A series of eight photographs featuring all band members, Joe Newman (guitar), Hus Unger-Hamilton (keyboard) and Thom Sonny Green (drums). This performance was just months after the release of their break-out album 'An Awesome Wave' and therefore represents a seminal moment in the band's career. Date: 05/12/2012 This Fusion NFT is indivisible bundle comprising the following items (1-4) only: 1) Physical Items: Unique, high quality poster size prints (22 x 15") (8). 2) Digital Item: The unique and original high resolution file as captured by professional photographers working under service contracts for Live From Abbey Road File Format: JPEG File Size: 66.6 MB 3) Intellectual Property Rights: Copyright in the images (as described in this description and corresponding to the matching Physical Items and Digital Item set out above) to be assigned from the current holder to the buyer that gives the right to reproduce or exploit the image. 4) NFT: A non-fungible token (NFT) to be held in a Binance compatible online digital wallet, associated with items 1-3 identified above. Notes: Between the years 2006 and 2012, Abbey Road Studios hosted one hundred and forty of the finest musicians from around the world. These hallowed grounds facilitated the most intimate of performances - the groups playing to one another for the sheer pleasure of their music as opposed to a paying audience of thousands. Photographed by studio professionals, the images offered below are unique representations of the otherwise unseen magic of these one-time performances. For musicians so familiar to the big stage, performances such as these at Abbey Road Studios are a rare moment of purity and clarity. For fans of music, performance and the arts, no better record exists of this intimate artistic impression. What is a Fusion-Non-Fungible Token (NFT)? - A rare and tangible, high quality print. - A digital asset comprising the original high resolution file. - Copyright over the image. - An NFT contract to be held in a Binance compatible online digital wallet, proving ownership over the above.

Performance(nft): Pictured walking across the famous Abbey Road zebra crossing. A unique photograph mounted in a black frame. **Dated:** 19/03/2009 This unique photograph comes just a few months before Seal's 'Seal 6: Commitment'. This Fusion NFT is indivisible bundle comprising the following items (1-4) only: 1) **Physical Items:** A unique, high quality framed poster size print (22 x 15") 2) **Digital Item:** The unique and original high resolution file as captured by professional photographers working under service contracts for Live From Abbey Road **File Format:** JPEG **File Size:** 6.40 MB 3) **Intellectual Property Rights:** Copyright in the image (as described in this description and corresponding to the matching Physical Items and Digital Item set out above) to be assigned from the current holder to the buyer that gives the right to reproduce or exploit the image. 4) **NFT:** A non-fungible token (NFT) to be held in a Binance compatible online digital wallet, associated with items 1-3 identified above. **Notes:** Between the years 2006 and 2012, Abbey Road Studios hosted one hundred and forty of the finest musicians from around the world. These hallowed grounds facilitated the most intimate of performances - the groups playing to one another for the sheer pleasure of their music as opposed to a paying audience of thousands. Photographed by studio professionals, the images offered below are unique representations of the otherwise unseen magic of these one-time performances. For musicians so familiar to the big stage, performances such as these at Abbey Road Studios are a rare moment of purity and clarity. For fans of music, performance and the arts, no better record exists of this intimate artistic impression. **What is a Fusion-Non-Fungible Token (NFT)?**- A rare and tangible, high quality print.- A digital asset comprising the original high resolution file.- Copyright over the image.- An NFT contract to be held in a Binance compatible online digital wallet, proving ownership over the above.
