## 22166 - Live From Abbey Road, a Selection of Unique Photographic Fusion-NFTs - Part II - e-Auction

### Lot 1

Alanis Morissette A Unique Image from A Behind Closed Doors Performance(nft): Pictured seated at the microphone in a black sequin shirt between takes. Date: 25/05/08 Pictured just under a month before the release of her 2008 album "Flavours of Engagement" which achieved 600,000 sales worldwide and placed number one in the Swiss charts. This photograph represents Morissette in the mature years of her successful career, thirteen years after her hit album "Jagged Little Pill". This Fusion DOT is an indivisible bundle comprising the following items (1-4) only: 1) Physical Items: A unique, high quality poster size print (22 x 15") 2) Digital Item: The unique and original high resolution file as captured by professional photographers working under service contracts for Live From Abbey Road File Format: JPEG File Size: 4.07MB 3) Intellectual Property Rights: Copyright in the image (as described in this description and corresponding to the matching Physical Items and Digital Item set out above) to be assigned from the current holder to the buyer that gives the right to reproduce or exploit the image. 4) DOT: A digital ownership token (DOT) to be held in a Binance compatible online digital wallet, associated with items 1-3 identified above. Notes: Between the years 2006 and 2012, Abbey Road Studios hosted one hundred and forty of the finest musicians from around the world. These hallowed grounds facilitated the most intimate of performances - the groups playing to one another for the sheer pleasure of their music as opposed to a paying audience of thousands. Photographed by studio professionals, the images offered below are unique representations of the otherwise unseen magic of these one-time performances. For musicians so familiar to the big stage, performances such as these at Abbey Road Studios are a rare moment of purity and clarity. For fans of music, performance and the arts, no better record exists of this intimate artistic impression. What is a Fusion-Digital Ownership Token (DOT)? - A rare and tangible, high quality print. - A digital asset comprising the original high resolution file. - Copyright over the image. - A DOT contract to be held in a Binance compatible online digital wallet, proving ownership over the above.

Estimate  
£150 to £300
