Lot 3259

France1929 Tourist Issue"Pont du Gard"20f. perforation 11, imperforate at top, an extraordinary example from the upper right corner of the sheet, unmounted mint; superb. One of only five stamps recorded. Behr certificate (2016). Spink Maury 262Aa, €25,000++At the beginning of 1929, the General Commissariat for Tourism asked the postal administration to issue a series of postage stamps representing French monuments. Between 1929 and 1931 five stamps were issued, among them the 20 francs "Pont du Gard". Issued on 15 May 1929, this stamp quickly became a prestigious issue of semimodern philately. Initially flat typographically printed in sheets of 50 examples without dated corners, from 1931 it was printed in rotary typography in sheets of 25 examples with dated corners. During the flat printing, in 1930 an error during the handling of paper required the use of another perforation machine. This error could have gone unnoticed if the perforation had been the same ... But the used machine applied a perforation 11 instead of the 13.5 perforation, thus a stamp with perforation 11, very sought after, was born. However, the story of this fabulous stamp does not finish here. A misplaced positioning of the sheet during the perforating process gave birth to one of the great rarities of semi-modern postage stamps of France: the perforation 11 executed on three sides only. French ColoniesGuadeloupe1816-39 two early letters including 1816 addressed to London showing guadeloupe straight line cancel and arrival (23.3) datestamp; 1839 from Lamentine to Basse Terre showing framed pointe a pitre/guadeloupe/ 16 septembre 1839 handstamp. Each with a Behr certificate (2016). A fine and unusual duo.Subject to 20% VAT on Buyer's Premium. For more information please view Terms and Conditions for Buyers.

Estimate £80 to £120

French ColoniesGuadeloupe1876 40c Black on blue first typeset postage due, large balanced margins all around, tied to piece of cover from the tiny town of Lamentin by black "Guadeloupe/Lamentin/10 Janv. 78" double-circle c.d.s. applied at posting to Pointe-a-Pitre. Charged by neat "4" handstamp for 4 decimes due, the reverse showing arrival for the same day. In 1878 Guadeloupe instituted a two tier system with different rates for postings within the same postal district and those from district to district. Lamentin was considered to be in a different district than Pointe-a-Pitre and the rate had been increased from 25c to 40c for the first weight class of up to 15 grams. This piece was charged the single rate of 40c under this new system. This phenomenally rare piece exhibits a sole single franking of the rare 40c Black on blue paper. Only in the second rate period can a single franking be properly used as the other single rates in first period and the same district single rate in the second period are both 25c or multiples of 25c up to 50 grams. There is one rate in the third period where a single 40c could be used but by December 1878 all the 40c Black on blue had been used up. Dubus in his 1958 handbook records only three such usages of this rare stamp in 1878, and this possibly being the finest. One of the greatest rarity of all French Colonies. Behr (2016) and Brun (2025) certificates. Yvert 2, €50,000++Subject to 20% VAT on Buyer's Premium. For more information please view Terms and Conditions for Buyers.
