FranceTHE UNIQUE "31st DECEMBER 1848" COVER -1849 20c. black, graced by intense colour and featuring large even margins on three sides, just touched on a small part of the right hand margin, on single weight cover to Aumatre (Oisemont) and tied by a clear "AMIENS/32 DEC/48/(76)" cachet adate, one day before the date of issue of the first stamps of France. Another strike of the datestamp with the same date is repeated at left and is overstruck by yet another with the date amended to 1 January 1849. The circular datestamp was, it may be assumed, carelessly used 1st at the Post office on the of January 1849, but the datestamp had not been initially changed. "OISEMONT/1 JAI\IV 49/(76)" datestamp on the reverse, accompanied by "2" (decimes) rate in manuscript, which was applied in error, most likely due to the postal clerks being not being familiar with postage stamps, this manuscript marking was later crossed out. The 20c. Adhesive postage stamp, the first to be issued in France, came about after a decree of the National Assembly issued on 24 August 1848. The stamps being printed from the 4th of December 1848. The decree also stated that new postal rates were to come into effect of the 1st. of January 1849, to coincide with the issue of stamps, including the 20 centimes single weight rate of up to 1.5 grammes between different offices. WHERE HISTORY IS VALUED

(x) Israel 1948-72, Israel Stamp Booklets. An extraordinary and virtually unique collection, fully mounted to exhibition standards on 128 pages. This exceptional collection presents a comprehensive overview of Israeli stamp booklets issued during the first 25 years of the country's postal service, documented through original booklets, covers, proofs, varieties and related material - Israel developed a distinctive and remarkably rich field of stamp booklets; they represent the very first postal concepts and practical solutions of the State of Israel and are therefore regarded as true classics of Israeli philately. The collection includes the only known booklet of postal stationery, a unique feature in world philately; the Freedom from Hunger sheet with tête-bêche positions, of which only a very small number were ever used in booklet form. Of outstanding importance are more than 20 panes from the first provisional Doar Ivri booklet issue, including material from the collection originally titled "First Coin (Doar Ivri) Provisional Stamps Booklets", and even of more significance and great rarity are all six proof sheets of this set. A defining feature of this collection is its treatment of the booklet, including advertising panes and covers, with elements that were almost never preserved at the time. The survival of complete booklets with all advertising areas intact is exceptionally rare, and this is one of only two comparable collections known worldwide, the other being held within the British Royal Collection. A lot of extraordinary rarity, depth, and exhibition pedigree, representing one of the most important studies ever formed of Israeli stamp booklets, and awarded at seven worldwide exhibitions. Subject to 5% tax on Hammer Price in addition to 20% VAT on Buyer's Premium.

WHERE HISTORY IS VALUED

(x) Japan Russo-Japanese War (1904-5) archive of eight covers/contents, relating to a soldier in the Yalu River Army, 3rd Shidan (Division) named Kyushiro Fukuroi, covering the period before being drafted into the army, through his service in the war and to the end of hostilities. It seems likely that Toyozo Kusaba volunteered in the early part of 1904, just prior to the outbreak of the Russo-Japanese War, since the first item in the correspondence is a letter from the accounts department of the 48th Infantry Regiment enclosing a refund of payment for arms expenses following a reduction in charges by the Osaka ordnance factory. The letter was written on the 17th of March 1904, and the cover carries the cancellation of the Kurume Regiment. The second item is a letter from Kusaba to his grandfather, written in Manchuria and bearing the cancellation of the Second Army dated 37.6.25 (25th June 1904). Kusaba relates that he landed on the 16th of June after departure from Nagasaki on the 13th and asks for some perfumed wood to be sent to him to offset the "stink of the local houses", Kusaba was serving with the 6th Division, 48th Regiment, which was soon involved in fierce fighting during the drive north towards Liao-Yang. The third item is a letter from Kusaba written in early August 1904, bearing the cancellation of the Second Army, 2nd Field Post Office dated 3rd of August. On this day the army occupied Hai-Cheng. The fourth cover contains a letter from a fellow soldier. Written on the 27th of October and telling of the death in action of Toyozo Kusaba. The cover carries the cancellation of the Second Army dated 3rd November 1904. The 6th Division was in the heavy fighting at the battle of Shao-Ho and it was there that Kusaba died. The fifth and sixth letters are from Kusaba's commanding officer to his grandfather, telling of his grandson's death and forwarding his outstanding pay. The covers carry the cancellations of the Second Army 6th Field Post Office and were written after the Sha-Ho battle. The final items were sent to the Kusaba family and relate to a memorial service held at the headquarters of the 48th Regiment, held in Kurume. There is a letter from General Oku, the commander of the Japanese Fourth Army, a layout plan of the Regimental Depot showing the memorial hall, and the official "Gunji Yubin" cover cancelled by the Fourth Army, 8th Field Post Office dated 39.1.26 (26th January 1906).
