Bermuda 1861 Postmaster's Stamp, W.B. Perot (1d.) carmine-red on bluish horizontally laid paper, a crisp rich red strike, cut square and not obliterated, the faintest trace of a wrinkle mentioned strictly for accuracy; The unique unused example and of the highest exhibition quality. A true world rarity. B.P.A. (1984 and 1991) and R.P.S. (1991) Certificates. S.G. 06, £150,000. PhotoNotes: William Bennet Perot served as postmaster of Hamilton between 1818-62. In this period he devised a scheme for the pre-payment of mail which could be left in a box outside the post office while Perot was otherwise occupied. It has been widely reported that he was a keen gardener and was therefore often not present at the office, or in other cases, senders may wish to deposit letters after opening hours. In such cases Perot found that, more often than not, the letter was deposited without the requisite payment, and so, with the advice of his neighbour, Mr. James Bell Heyl, adhesive labels were produced to be purchased ahead of time and denote pre-payment of mail. In order to produce the labels, Perot initially removed the date plugs from his postmarks leaving only "hamilton/bermuda" and the year, inserting "One Penny" above the year in manuscript. Later, in 1861, Perot would change the design to that of the example offered here: striking paper with the Crowned Cricle "paid/at/hamilton.bermuda" handstamp. All the known examples are cut square. The Encyclopaedia of Rare and Famous Stamps records eleven first type stamps, and only five second type stamps; of the second type this is the only unused example recorded. As the story goes the stamp was acquired by Peter Hansen, a Danish Sea Captain which passed to his widow in 1942. Mrs. Hansen then sold to a private buyer, and it was rediscovered in 1984 by the Sotheby's Copenhagen office, and sold by them in the following year. All the known Perot's are considered major world rarities and should be considered hugely important pieces of world philatelic history. Jamaica 1919-21 Pictorial Issue 1/- FRAME INVERTED A Fine Used Example of this Famous and Important World-Renowned Rarity 1919-21 Pictorial MCA 1/- orange-yellow and red-orange, variety frame inverted, wonderful colours and centering, neatly cancelled by part Manchioneal date stamp for 24 December 1921. An outstanding example of this variety, one of the rarest stamps of Jamaica. R.P.S. (1971) and B.P.A. (2011) Certificates. S.G. 85a, £25,000. Photo Note: In March 1922 a small block of stamps, reported as ten and described as with centre's inverted, was found at the Manchioneal Post Office, a small village on the north east coast of the island. The General Post Office at Kingston had confirmed that only half a sheet of thirty stamps would have been sent to the Manchioneal Post Office at any one time. Examples are also known cancelled at Kingston but the stamp offered here has the romance of that initial discovery in rural Manchioneal. We record ten mint, including the corner pair, and ten used examples of this classic error. provenance: Joseph Mahfood, Spink Shreeve, January 2011 "Libra", Spink, April 2022, Lot 418 Subject to 20% VAT on Buyer's Premium. Peckitt offering this block to Charles Hasslacher Esq. in which he advises the potential buyer that the price discussed was only for a single strip and not the block of fourteen.
