**Lot 1028**

China, Qing Dynasty, Shansi Province, [Zhong Qian Genuine] silver 50 tael sycee, 1850-1861, stamped 'Xian Feng Nian Xin Yue' (Xian Feng Era), 'Tai Gu Xian' (Tai Gu County) and 'Yi Chong Tai', 123.8x64.5x87.1mm, weighs 1805.9g. Damaged and Repaired. Despite the noted flaws, this particular piece is still noteworthy because of the clearly struck stamps, especially when compared to other examples of the region as the stamps are usually closer to the sides and would become illegible. Furthermore, Xian Feng era sycees are considerably more uncommon than Guang Xu and Xuan Tong era sycees

China, Qing Dynasty, Shansi Province, [Zhong Qian Genuine] silver 50 tael sycee, 1850-1861, stamped 'Xian Feng Nian Xin Yue' (Xian Feng Era), 'Tai Gu Xian' (Tai Gu County) and 'Yi Chong Tai', 123.8x64.5x87.1mm, weighs 1805.9g. Damaged and Repaired. Despite the noted flaws, this particular piece is still noteworthy because of the clearly struck stamps, especially when compared to other examples of the region as the stamps are usually closer to the sides and would become illegible. ### Lot 1043

China, Qing Dynasty, Yunnan Province, [Zhong Qian AU55] saddle shaped silver 5 tael sycee, 1884-1911, issued by Chen Yuan Chang Hao in the 5th month of the lunar calendar, 55.8x37.8x14.1mm, weighs 156.3g, inspected by the official Tong Fu Cheng. The booming trade of opium within Yunnan brought an influx of silver, but discrepancy in purity of silver from different regions meant that a unified standard is needed for buyers and sellers alike, hence the introduction of the quality control system. Interesting to note that Chen Yuan Chang Hao is likely named after Chen Yuan Chang, also one of the official appointed assayers. A Distinguished Lady's Collection of Sycee
